PROFESSIONAL SUMMARY

Creative and results-driven React Developer with hands-on experience building dynamic, intelligent, and user-friendly web applications. Passionate about integrating AI into front-end development, including chatbots, speech recognition, and virtual interviewers. Adept in React.js, JavaScript, Tailwind CSS, and RESTful APIs. Always eager to explore the latest web technologies and deliver innovative user experiences.

TECHNICAL COMPETENCIES

Languages: JavaScript, Python, HTML, CSS

Frameworks & Libraries: React.js, Tailwind CSS, Express.js

AI Integration: OpenAI API, Speech Recognition APIs

Tools: Git, GitHub, VS Code

Other: REST APIs, Component-based Architecture, Responsive UI Design

INTERPERSONAL SKILLS

Analytical Thinking | Problem Solving |
Communication | Teamwork | Adaptability |
Critical Reasoning

INTERESTS & HOBBIES

Problem Solving | Chess | Travelling

LANGUAGES KNOWN

Hindi | English

EDUCATION

B.Tech in Information Technology

Chandigarh Engineering College, Landran, Mohali

2022 – 2026 | CGPA: 7.43

Intermediate (CBSE)

Annie Besant International School, Patna | 2021 | 69.6%

Matriculation (CBSE)

Oak Grove School, Mussoorie | 2019 | 67%

TRAINING & PROJECTS

AI-Based Chatbot Assistant: A customizable chatbot built using React and Express.js, integrated with OpenAI for real-time conversational responses. Includes features like file uploads, emoji support, and speech input.

AI Speech Recognition Tool: Developed a React web app utilizing browser speech recognition API to convert voice to text. Supports real-time transcription and voice-based command execution.

Professional Resume Builder (React + PDF Export): An interactive resume builder built with React.js allowing users to input details and download beautifully styled resumes as PDFs.

PrepGenix – Virtual Interviewer: An intelligent AI-powered mock interview platform developed in React. It evaluates user responses (text/audio), scores performance, and gives instant feedback based on selected job roles.

Recipe Project: A React-based recipe app displaying step-by-step cooking instructions. Emphasis on component modularity and state management.

Blog Playlist Layout: Responsive layout inspired by YouTube playlists using React and CSS Grid.

ACADEMIC ACHIEVEMENTS

- **Smart India Hackathon 2023:** Proposed tech-based doctor appointment & availability solution.
- **Innovative Problem Solving:** Projects on air ambulance, helmet safety, and direct farm-to-consumer delivery.
- **Tech Events:** Participated in "Code Jam" and "Decode O Bytes" competitions.
- **Event Volunteer:** Worked as SIH nodal center volunteer and event organizer

CERTIFICATIONS

- **HTML Web Development** – Infosys Springboard
- **CSS for Web Pages** – Infosys Springboard
- **AWS Academy Cloud Foundations** – AWS Academy

EXTRA CURRICULAR & CO-CURRICULAR ACHIEVEMENTS

- **Organizer & Volunteer** for various college-level tech and non-tech events
- **Participant**, 6 Km Mountain Marathon
- **Workshop Attendee:**
 - ML Study Jams with TensorFlow
 - Introduction to Flutter
 - Literature Workshop
